RE: Community Stakeholders Meeting No. 1 - Meeting Invitation

Local Preliminary Engineering Phase for the
Clay Street Bridge Replacement over the Passaic River
Borough of East Newark and City of Newark, New Jersey

Dear Property Owner or Interested Community Stakeholder:

The County of Hudson and County of Essex will be hosting an online Community Stakeholders Meeting regarding the Local Preliminary Engineering (LPE) phase for the Clay Street Bridge Replacement Project. The meeting and project implementation are in cooperation with the New Jersey Department of Transportation (NJDOT) and the North Jersey Transportation Planning Authority (NJTPA).

Community Stakeholders Meeting No. 1

Date: Wednesday, July 23, 2025

Time: 1:00 p.m. - 3:00 p.m. *(meeting may end earlier, depending on Q&A)*

Location: Online via MS Teams *(please RSVP to receive the meeting link)*

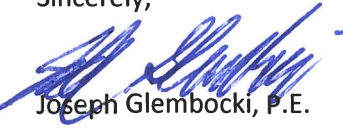

The purpose of this Community Stakeholders Meeting is to introduce the project team, provide the project status and schedule for the LPE phase, present bridge replacement preliminary plans and obtain community input on proposed improvements. You were specifically chosen as an invitee due to your property's proximity to the project site or your potential interest as a community stakeholder.

If you wish to attend the meeting, or will send someone to represent your interests, please RSVP to claystbridge@gmail.com with your name and email address or contact Martine Culbertson, Community Involvement Facilitator, at 856-795-8485. If you cannot attend this meeting, a Public Information Center (PIC) meeting will be held online in the future to inform the general public and obtain comments on the bridge replacement project.

For project information, please visit the project website at claystbridge.com. If you have questions or comments regarding the project, please contact the project team using the [Contact Us](#) page of the website or by email at claystbridge@gmail.com.

We look forward to working with the local communities on this important bridge replacement project.

Sincerely,

Joseph Glembocki, P.E.

Hudson County Assistant County Engineer
